## TESTIMONIALS

*“I recently attended an instructional clinic (putting) presented by Michael Morschauser, I was very pleased with Michael's teaching style. He was professional, very time efficient and presented the techniques in an easy to understand way. The class size was small so Michael could spend time with each student. I walked away pleased and felt I had a good base to build from, now it's up to me”*

### **David M**

*“I've found the clinics to be very helpful. Michael's a very clear and positive instructor and gives helpful tips”.*

### **Chris K**

*“I couldn't make the clinic and Michael was kind enough to suggest we pick a date so I can still learn how to read the greens.  
I did hear at our league meeting last night that it was fabulous. I even heard that 3 of the men who took it raved about it.”*

### **Nan S**

*“I've taken two clinics now with Michael and have nothing but high praise for this experience. These are the reasons I've been recommending additional clinics to others at the course and among my golfing friends from elsewhere:*

*+ Michael is very clear in his descriptions and modeling; it's easy to see and hear what he is teaching.*

*+ Each participant gets personal feedback and he is very positive and encouraging even while correcting for mistakes or poor habits!*

*+ He is very patient and even in his approach with each participant.*

*+ Offers to borrow his equipment for practice are much appreciated, as he insures we know that it is practice of the new learning that will truly improve our games.  
Following the putting lesson, I've played a few times and can report that I have been more confident and more successful, nailing two putts on greens where I often hit three in past seasons. Hopefully, this will continue for the season ahead! While I missed the second lesson, Michael took time to catch me up to speed when doing the follow-up 3rd. I do know that I will easily remember the directions/tips from Michael when I practice these skills - he gives brief, focused instructions with both visual and auditory cues for his learners.*

*I feel that Michael is a great addition to the course and look forward to learning from him throughout the season.”*

**Deb Carey**

*“Mike is a good guy and he knows his stuff. The lesson was helpful. There was a good balance between group instruction and individual attention. All I have to do now is practice Thanks,”*

**Ted Wright**

*“I had a great experience at the lesson today, he was very well versed in his instructions and he helped each one of us personally.”*
